ARMORY DECK — ORIGINS —

JARL VETREIDI

Release Date: November 29, 2024

A chill fills the air as the northern winds exhale from Isenloft once more. The Ollin are awakening, their icy slumber shattered by a tremor in the flow not felt since the age of the Old Ones.

Long ago, the Ollin stood firm against the horrors that fed upon Rathe. Yet among them, one was feared as much as the foes they fought together— **Jarl Vetreidi**.

Origins marks a new premium chapter in the hugely popular Armory Deck series, introducing a brand-new hero. Or, in the case of Jarl, transforming one of the most anticipated characters from *Flesh and Blood* lore into a playable hero!

Armory Deck: Jarl packs immense value with the debut of 10 new card designs, including 23 Majestics and an all-new Legendary equipment piece!

PRE-CONSTRUCTED
READY TO PLAY

MSRP:

59.90 USD / 59.90 EUR / 79.90 CAD
